```
indir =  
'C:\Users\sa01ld\OneDrive - SAMS\Instruments\CastAway\H4_CSS\'
```

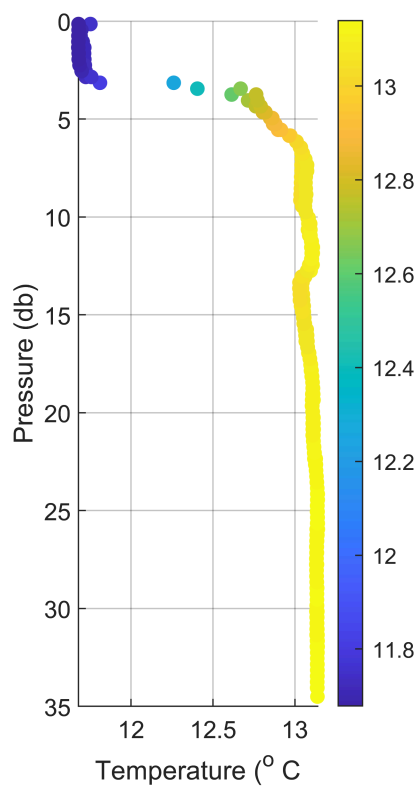

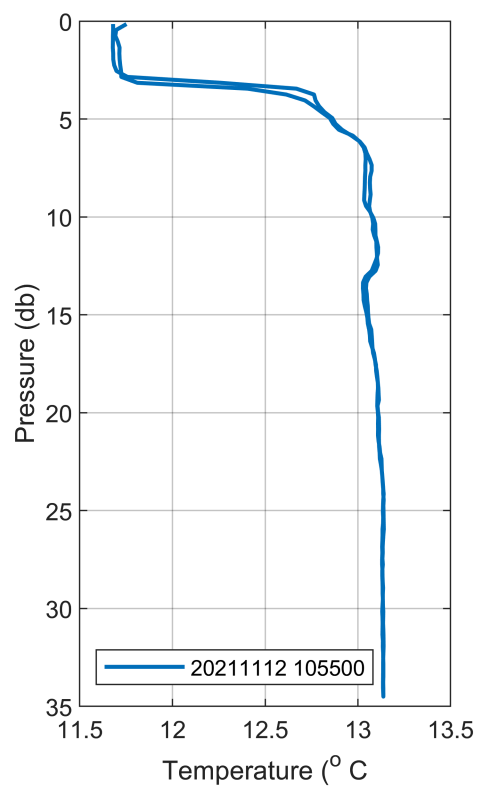

Get list of all .csv files

plot a timeseries of temperature as a profile plot

plot a timeseries of temperature as a profile plot

Warning: Column headers from the file were modified to make them valid MATLAB identifiers before creating variable names for the table. The original column headers are saved in the VariableDescriptions property. Set 'PreserveVariableNames' to true to use the original column headers as table variable names.
